Dear Dr Rouhi,

This letter is to confirm that the paper:

Nicholas Ali and Gholamreza Rouhi, Barriers to Predicting the Mechanisms and Risk Factors of Non-Contact Anterior Cruciate Ligament Injury, The Open Biomedical Engineering Journal, 2010, 4, 178-189

went through our rigorous review process. Our process requires a minimum of two double blind reviews by experts in the field. This is followed by a series of review assessments by the reviewers and the editor.
